Golden Spike Treatment Ranch, Inc
1537 West Saxon Circle
Springville, UT 84663

RE: Letter of Intent

Dear Golden Spike Treatment Ranch Board:

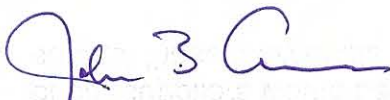

Thank you for sharing I Care, Inc's plans for the development of the Golden Spike Treatment Ranch Rehabilitation/Training Center in Box Elder County, Utah.

As we have discussed, many of our Big O franchise locations need a steady workforce consisting of individuals who are trained in the professional standards required to dismount, mount and balance tires and install wheels. In your efforts to successfully complete the Rehabilitation Center, Big O will provide you copies of our proprietary, prototypical designs, assist with the layout, and will contact suppliers to see if they would donate new or used equipment. (Please understand that any response from any of our suppliers would be within their sole discretion. Our commitment is to simply contact those individuals or firms.)

While I cannot guarantee employment for any of the individuals successfully completing your program, I can assure that there is significant demand for this type of skilled labor. Obviously we will need to work together to understand the concerns that our franchise owners may have with employing these individuals. I understand that candidates for this program will be convicted offenders, but of a non-violent and a non-sexual crime. I believe that we can develop a process that will create benefits for all involved with this program.

Scott, as additional information becomes available and your program moves forward, please keep me informed of your progress so that I can assist at the appropriate time.

Very truly yours,

John B. Adams
